US SIGN AND FABRICATION CORP. ANNOUNCES THE RELEASE OF ONLINE INSTALLATION DRAWINGS

US SIGN (Trumbull, CT) the world's leader in architectural metal letters, logos and dimensional graphics, has released computer generated installation mounting detail drawings online for their pre-fabricated product lines from Titanium, Plate Plus, Micro Lite, Reverse Channel, Etching, Trim Plus, Plaques and LED's.

The drawing is available through their web site (www.USSIGN.com) via the product line then 'Mounting Details' tab. The drawing includes specific break-down of each product including details of features and mountings each sign or letter has to offer. Each drawing gives you precise information for installation and measurements. Actual installation pictures are also available via the "View Installation" tab adjacent to the "Mounting Detail" tab. Each installation drawing is featured in an Adobe Acrobat PDF file for easy viewing, printing and sharing.
