US SIGN AND FABRICATION CORP. ANNOUNCES THE RELEASE OF A TWO
PAGE PRODUCT PORTFOLIO

US SIGN (Trumbull, CT) the world's leader in architectural metal letters, logos and dimensional graphics, has designed a two page product portfolio showcasing custom letter and logo fabrication.

Custom fabrication includes such materials as stainless steel, titanium, aluminum, brass and copper; all with various finishes. State of the art LED illumination, water jet cut letters and custom etched panels are also displayed in the portfolio.

The portfolio highlights a complete product line in color to reveal the distinctive features of each sign and accompanying materials. All products are superior quality and have on time delivery.
